About:

Passionate and driven Computer Science student. Devoted to relating client requirements and delivering effective results to all problems. Suitable to effectively tone-manage during independent systems, and also unite as part of productive group projects. Bringing forth the manageability and provocation to learn new programs.

Skills:

- C
- C++
- HTML
- CSS
- JavaScript
- Python
- Java
- SQL

Education:

Manipal University Jaipur
B.Tech - CSE
2023-27
The Adhyyan School, Meerut
Higher Secondary School Certificate (PCM)
2023
The Adhyyan School, Meerut
Secondary School Certificate
2021

Project:

Blueberry – Personal Voice Assistant

June 2025

Developed a personalised voice assistant capable of executing basic tasks such as answering general queries, providing weather updates via API integration, opening applications and sites, and responding to voice commands using speech recognition.

- Implemented using Python, speech_recognition, pyttsx3, PyAutoGUI, and external APIs
- Focused on modularity, error handling, and responsiveness to real-time input

Certifications:

- Introduction to Front-end Development by Meta, Coursera
- Data Analysis and Algorithms, NPTEL
- Principles of UI/UX Design by Meta, Coursera
- Crash Course on Python by Google, Coursera
- Object Oriented Programming using Java, GeeksForGeeks
- Data Structures and Algorithm using Java, NPTEL
- Generative AI Foundations Certification, upGrad in collaboration with Microsoft
