About:

Motivated Computer Science student with a strong foundation in software development and a proven ability to work both independently and collaboratively. Skilled in rapidly learning new technologies and applying them to solve real-world problems.

Languages:

- C
- C++
- JavaScript
- Python
- Java
- SQL

Web

- HTML
- CSS

Tools & Libraries:

- Git
- Flask
- APIs

Education:

Manipal University Jaipur
B.Tech - CSE
2023-27
The Adhyyan School, Meerut
PCM – 2023 | Secondary – 2021 |

Project:

Kiwi – Personal Voice Assistant
June 2025

Developed a personalised voice assistant capable of executing basic tasks such as answering general queries, providing weather updates via API integration, opening applications and sites, taking screenshots and responding to voice commands using speech recognition.

- Built a personal voice assistant using Python that could recognize voice commands, open apps/websites, and provide weather updates using APIs.
- Used speech_recognition, pyttsx3, PyAutoGUI, and REST APIs to implement voice input/output, automation, and web interaction.
- Designed for modularity and error handling, supporting real-time interaction and multiple task types.

Certifications:

- Introduction to Front-end Development by Meta, Coursera
- Principles of UI/UX Design by Meta, Coursera
- Crash Course on Python by Google, Coursera
- Object Oriented Programming using Java, GeeksForGeeks
- Generative AI Foundations Certification, upGrad in collaboration with Microsoft

Exctracurricular Activities:

Volunteer: International Cultural Evening by IAESTE LC MUJ
August 2024

Promoted the event through targeted outreach, social media campaigns, and personal engagement, leading to increased registrations.
Assisted in delegate coordination, ensuring smooth communication and managing logistics for participants.
